Saaransh Foundation celebrates World Autism Awareness Day

DNA Correspondent @dnaahmedabad

Ahmedabad: A city-based NGO Saaransh Foundation celebrated World Autism Awareness Day at Ahmedabad One mall on April 2.

Autistic children put up dance performances and a skit explaining people about autism spectrum disorder. They also presented a song on the occasion. The children brought the audience to tears when they addressed the issue of lack of sensitivity in the society.

"Children with additional needs are never a liability. They are true gems who are undermined and overlooked due to various factors. We should collectively help transform their lives and accept and understand them," Rani Chaudhry, director, Saaransh Foundation, said.

Audience enjoy performances by the autistic children at the event
